

BR-29012026

Vulnerability Fix [January 13, 2026 at 00:54 (UTC)]

Moment.js 2.18.x < 2.29.4 Regular Expression Denial of Service

Action Taken

The library has been upgraded to the latest version

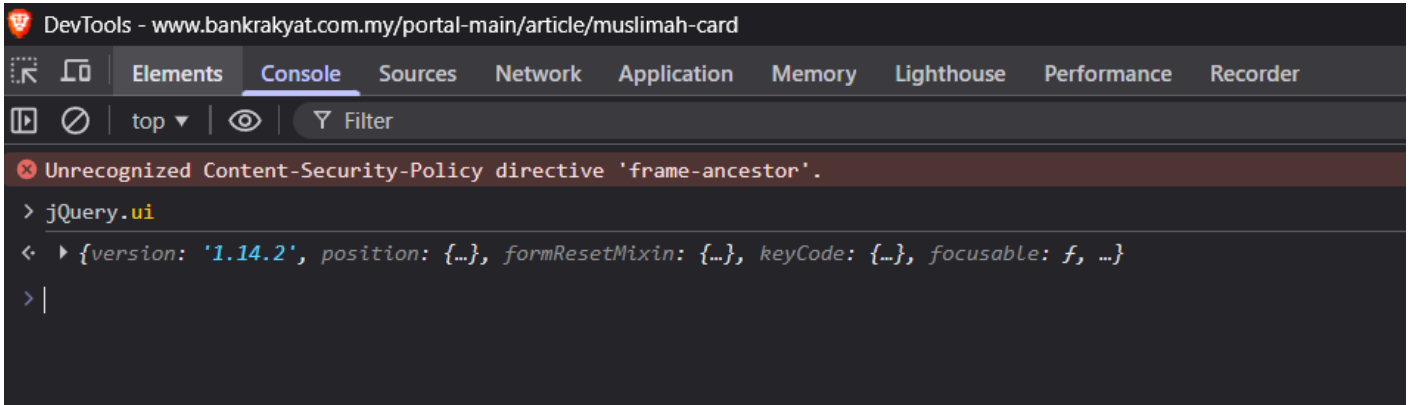

The screenshot shows the Chrome DevTools Console for the URL `www.bankrakyat.com.my/portal-main/article/muslimah-card`. The Console tab is active, showing a red error message: `Unrecognized Content-Security-Policy directive 'frame-ancestor'.` Below the error, a JavaScript command `moment.version` is entered, and the output is `'2.30.1'`, indicating the library has been updated to the latest version.

jQuery UI < 1.13.0 Multiple Vulnerabilities

Action Taken

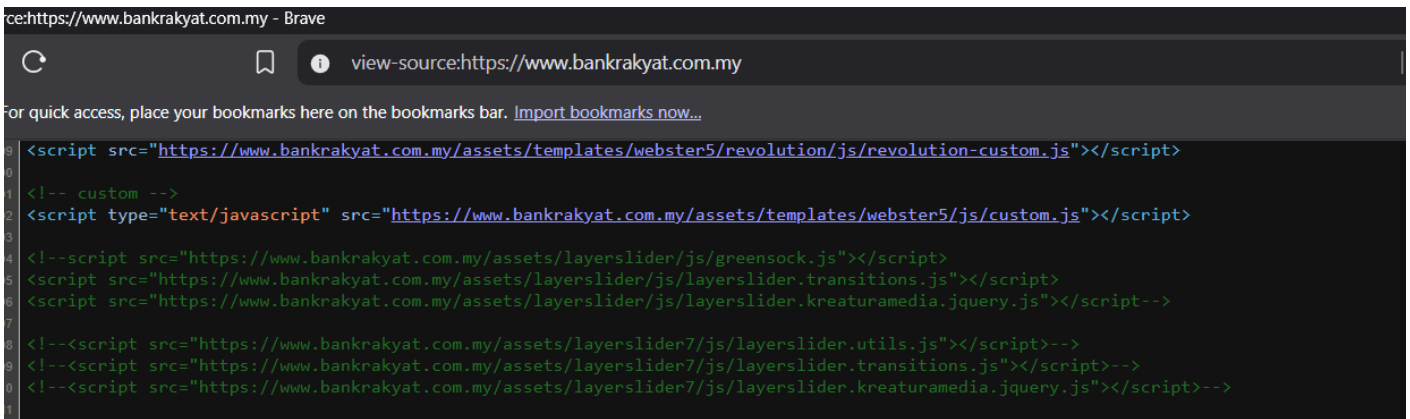

The library has been upgraded to the latest version

Unsupported JavaScript Libraries GSAP Layerslider

Action Taken

The library has been disabled.

Revision #3
